

# DeepBox introduces Hoop: an online service for the incorporation of new companies

The process of establishing a new company often requires significant investments in terms of time and energy. Hoop offers all trust companies the opportunity to take advantage of a practical, quick, and fully digital company incorporation service.

## An Easy and Fully Digital Process

The electronic signature allows incorporating a new company without the need to move to a physical location.

## A single point of contact that handles everything

Hoop consultants facilitate the incorporation process. They handle every step of the process in a transparent, fast, and efficient way, which includes interfacing with the notary public and business registry office.

## Fast and integrated company incorporation account opening

With Yapeal, opening the company incorporation account to pay the share capital is managed entirely online. The account is ready for use in just a few minutes.

## The process is managed entirely within DeepBox

- > New company incorporation
- > Incorporation form immediately available
- > Incorporation payment
- > All the documentation can be browsed in DeepBox (e.g., articles of incorporation, notarized excerpt from the business registry and more)
- > Digital signature with DeepSign
- > Client onboarding. The client may also be granted access to the DeepBox platform and related products.

## Client management fully in the hands of the trust company

Hoop and DeepBox use the data collected solely for the purpose of completing the incorporation process.
